Acknowledgment of Practicum & Internship Handbook

This manual is provided to students to help assist them in securing a practicum and internship site. All students are expected to read this manual and thoroughly understand its contents. Students should also be aware that they can discuss the handbook and direct questions and concerns to the Clinical Coordinator. Students agree to abide by all procedures, policies, and guidelines outlined in the handbook. Students understand that this handbook may be modified occasionally as University or Program policies, procedures, and guidelines are implemented or changed. Students must review the manual from time to time to remain current with its contents.

Welcome and Introduction

Congratulations on reaching this milestone in your educational journey!

The practicum and internship experiences are some of the most crucial professional preparation activities in your educational journey. These experiences are meant to provide you with the opportunity to apply, evaluate, and refine your counseling skills by bridging the gap between theory and practice. You will also develop the personal qualities, characteristics, and behaviors of a professional counselor as you transition from “Counselor in Training” to “Professional Practitioner.”

This handbook is designed to help you prepare for and successfully complete the site-based experiences in clinical mental health counseling. As the knowledge in our profession evolves, you cannot learn everything you need to know about Professional Counseling during your coursework. Professional growth and development are ongoing processes, and key patterns for this growth are established during your supervised clinical training experiences. This is an exciting time in your journey to becoming a professional practitioner!

As you plan for your practicum and internship experience, you will begin to identify sites located in your community that will serve as a placement in the profession. You will need to find a place that can allow you to practice and develop the counseling skills used by professionals in your program. This includes having opportunities to act as a counselor or co-counselor in face-to-face meetings with clients. Your practicum/internship site will also need to provide you with enough direct client contact hours so you can meet the requirements of our program. The information in this packet will help you understand the practicum/internship requirements, locate a practicum/internship site, help with the initial contact, and assist in submitting the appropriate materials into our University of Mt Olive (UMO) system, Experiential Learning Cloud.

Professional Experience Information

The Clinical Mental Health Counseling experience consists of three experiential learning opportunities: one Clinical Mental Health Practicum Experience and two Internship Experiences. Each professional experience provides a supervised clinical mental health opportunity emphasizing the knowledge and practice of counseling skills, theories, competencies, and best practices.

The **Clinical Coordinator, Dr. Jenna Taylor, PhD, LMHC, NCC** oversees the development of processes for managing the clinical placement activities, including the application, site approval for placement, and manages the UMO online system through the Experiential Learning Cloud (formerly Tevera) a comprehensive student learning outcome assessment process via a software system. At UMO, we use Experiential Learning Cloud to monitor and track student learning and progress on an individual and program basis, initiate and monitor the site-based placement process through evaluation, document internship hours at sites, and provide students with permanent access to their personal information.

Students applying to practicum or internship will work with the Clinical Coordinator to secure a supervised practice in an appropriate mental-health-related setting. Each student is responsible for collaborating with the clinical coordinator to ensure the site and supervisor meet appropriate requirements. **The clinical coordinator must approve the site and the site supervisor before the student can begin the practicum or internship. In addition, students must ensure that their site-based experiences meet their specific standards and requirements.**

Eligibility Requirements for Practicum and Internship

Eligibility requirements for practicum and internship include master's-level status and department approval. Students must provide the required information about sites where they will complete hours before beginning practicum and internship experiences.

Practicum in Counseling (COUN591) is a 3- credit course requiring students to complete a minimum of 100 supervised hours, 40 of which must include direct counseling services. Internship I and II (COUN 691 and 692) are 3- credit courses requiring students to complete a minimum of 300 supervised hours, 120 of which must include direct service hours. Students must complete 600 hours of supervised practice for their internship, of which 240 include direct service. The site experience must consist of individual and group counseling opportunities.

Addictions Information – Students Interested in Pursuing LCAS-A

*Students interested in pursuing an additional license as a Licensed Clinical Addictions Specialist (LCAS) under UMO's Criteria-C status are required to complete a minimum of 300 hours of their internship providing addictions counseling services (180 hours direct client contact hours) with a minimum of 30 hours of supervision by a Certified Clinical Supervisor (CCS) or Clinical Supervisor Intern (CSI). **Please note you must be able to demonstrate that these hours are substance abuse specific and with the appropriate site supervisor mentioned above.***

Student Initiative

Students are empowered to take charge of their site-based experiences. This handbook provides the necessary information for completing the steps of the placement and the actual counseling experiences and associated course requirements. The Counseling Department faculty and the Clinical Coordinator will be available to support student's growth throughout the site-based placements.

At the beginning of a clinical experience, the student should meet with the site supervisor to determine mutually agreeable goals and expectations that are in line with the requirements of the Practicum and the Internship. The Clinical Coordinator and the Counseling Program faculty will contact the on-site supervisor to ensure the value of the student's experience is maximized.

Students are expected to take the initiative to secure their own site placement and complete all the requirements specified for their professional experience with departmental support. The procedures and associated documentation are provided in this manual. Students must complete all preparatory paperwork, evaluations, logs, and approvals.

A site-based professional experience is an excellent opportunity for growth, but its value is very much dependent on the efforts expended by the students. Students are strongly encouraged to take the initiative to get involved in diverse situations and work with diverse clients in diverse counseling modalities. These rich experiences can shape counseling careers.

The on-site supervisor plays a vital role in the counseling student's professional experience and educational development. The supervisor serves as a professional role model and is often the student's first contact with professional counseling service delivery and the world of work. At UMO, we look to the On-Site Supervisor as a partner in the education of our students and therefore seek supervisors who

are knowledgeable in theories and techniques of professional counseling, mental health, human development, and issues of diversity that are important to the developing counselor.

Before Selecting a Site

For a site to be approved for Practicum or Internship, the following criteria must be met:

- You must find your own site. You must begin the process by submitting your resume or curriculum vitae under “other documents” in the Assignments Tab, in Experiential Learning Cloud. After your resume is approved, you can enter your site information.
- The site must provide an opportunity for the counselor to train students to provide professional counseling services.
- The site must allow students to be supervised using audio/video recordings or live supervision of students’ interactions with clients. Suppose a site does not enable students to make recordings that their university supervisors can view. In that case, students must have site supervisors sit in live sessions for observational feedback and submit a role-play tape with their site supervisor enacting a true-to-life client. Forms noting that recording is not allowed on-site are required for each assignment that requires a video recording.
- Have a professional on-site who is willing to oversee the work of the internship student while on-site and take responsibility for the creation of the onsite internship expectations. The on-site supervisor must meet weekly with the counselor in training and must monitor their work while at the site.
- The onsite supervisor must be physically on site, online or virtual supervision is not sufficient for the requirements of the internship/practicum experience.
- Virtual only sites will not be approved as telehealth counseling is an advanced skill. Hybrid environments will be considered on a case by case basis but a minimum of 50 percent of direct client hours must be in person and the group requirement still stands.
- As of July 1st 2025 per the NC Board of Licensed Clinical Mental Health Counselors “All graduate program internship experiences must take place in clinical mental health settings. This means aspiring counselors must gain experience in clinical settings that provide substantial opportunities for assessing, appraising, diagnosing, and treating mental health disorders. Some examples of suitable settings include private practices, college counseling centers, community agencies, managed behavioral health care organizations, hospitals, employee assistance programs, specialty treatment centers, vocational rehabilitation centers, marriage, couple, and family practices, addiction counseling sites, and school-based clinical mental health counseling sites.”

Master's counseling students may have more than one site where they earn hours in an academic term. If students have more than one site, they must have a site supervisor responsible for their work at each site and maintain a Experiential Learning Cloud log noting each site where they will earn hours.

Locating a Practicum or Internship Site

The relationship between the student, the site, and the supervisor is an important one. Therefore, students need to carefully chose a site and supervisor. Remember that as a student, when you interview for a potential placement, you are not only being interviewed, but you are interviewing the site and supervisor to determine if it is a good fit. The choice of an internship site and supervisor should be a mutual one. Internship students are allowed a maximum of two sites and two supervisors at any time that have been approved by the Clinical Coordinator of Practicum and Internship.

Please note that it takes time to locate a practicum and/or internship site. It is especially important to begin identifying prospective sites early. All UMO students are responsible for the initial contact with potential practicum and internship sites. As a first step, choose sites that serve clients you know you are passionate about, then use the following tips for your initial contact.

Initial Contact Tips:

1. Contact the sites that you are interested in and request to speak with someone who coordinates practicum and internship placements or training experiences.
 - a. Verify whether the prospective site accepts interns.
 - b. Find out if the site requires an Affiliation Agreement or Memo of Understanding (MOU). If so, please let the Clinical Coordinator know as soon as possible.
 - c. Ask if additional forms or application materials are needed, aside from the university requirements. If so, ask about the due dates for submitting the extra materials.
 - d. Request a site visit and speak with someone about a prospective internship.
 - e. Ask if you can send your cover letter and resume. How would they like those sent electronically (if so, get an email) or via mail (request the mailing address)?

2. During your initial visit, share:
 - a. Date you will start your practicum and internship (this will be the first day of class).
 - b. Hours you will be working at the site (you can share how many hours you plan to work weekly.)
 - c. Number of direct contact hours you will need with clients (40 for practicum and 240 for internship).
 - d. Number of weekly site supervision hours (one hour per week is required).
 - e. Review the UMO application process with the site.
3. Talking points during your initial discussion:
 - a. How to access your site supervisor, especially if you need to consult outside the required weekly supervision time.
 - b. Clientele the agency or organization serves.
 - c. Experiences that your prospective supervisor has had in supervising interns.
 - d. Experiential learning activities that the site would be able to provide for you.
4. Be prepared to answer questions such as:
 - a. Why are you interested in completing your Practicum/Internship at the site?
 - b. What are your expectations for your Practicum/Internship experience?
 - c. What are your strengths and areas to continue your growth?
 - d. What is your experience working with diverse populations?
 - e. What are your future career goals?
5. After you have decided the site is a good fit, begin working on UMO's required materials, verifying liability insurance, background check, and completing any other documentation your site requires.
6. Send a thank you card, letter, or email acknowledging your appreciation for their time and consideration.

Sample Script

In the upcoming months, I will complete the coursework for my Master of Science degree in Clinical Mental Health Counseling from the University of Mount Olive. I am currently exploring practicum and internship opportunities and would like to explore doing my site experience at (name of site). I am interested in completing my internship at your (agency/organization) because (list reason for interest).

In addition to the work on my master's degree, I received (insert degrees, dates, and institutions). *Provide information about personal characteristics that will appeal to your prospective site supervisor. Insert leadership positions in the community and school and any professional development/organization membership. Insert a summary of why the site would want you to work for them. Also, discuss how you found out about the site.*

I have enclosed my resume for you to review. If you desire further information, I can be reached at (enter phone number and email here). Thank you for your time. I look forward to hearing from you soon.

Site Supervisor Requirements

Your practicum/internship site will need to provide you with a supervisor who can meet with you for at least one hour per week for face-to-face individual or triadic (supervisor and two interns) supervision. Your site supervisor will need to meet the following three requirements:

1. Have a minimum master's degree in counseling or a related profession with equivalent qualifications, including appropriate certifications and/or licenses to practice independently in a state of residence.
2. Hold appropriate professional licenses and/or certifications.
3. Have a minimum of two years of pertinent professional experience in the specialty area in which you are enrolled.
4. Demonstrate knowledge of the Counseling Department's expectations, requirements, and evaluation procedures for clinical experiences. This information will be shared during their training.
5. Have appropriate training or education in counseling supervision.
6. Provide documentation of these credentials by completing the Practicum/Internship Site Approval Form, Site Supervisor Information Form (both found in the Required Forms section of this packet), and the online Supervisor Training Survey (information will be forthcoming following site approval). This documentation can be done through Experiential Learning Cloud.
7. Site supervisors must participate in the Counseling Department's online site supervisor orientation. At the beginning of the semester, site supervisors received an email from the faculty supervisor directing them to an online supervision training module accessible on our [Master of Science in Counseling Site Supervisor Resources](#) webpage. Site supervisors must acknowledge that they have reviewed the online supervision training in concert with their experience by submitting the *Site Supervisor Orientation Acknowledgement Form*.
8. **Examples of Approved Supervisors:**
 - Licensed Clinical Social Worker (LCSW)
 - Licensed Mental Health Counselor (LMHC)

- Licensed Marriage and Family Therapist (LMFT)
- Licensed Professional Counselor (LPC)
- Licensed Psychologist (LP) – a Psychologist who earned a doctoral degree in Psychology (Psy.D.)
- Ph.D. or Ed.D in Counselor Education and Supervision (from an accredited university)
- Psychiatrist
- Licensed Clinical Addictions Specialist (LCAS)*
- Certified Clinical Supervisor (CCS) or Clinical Supervisor Intern (CSI)*

** Only for students seeking additional licensure as an LCAS and only for the portion of their 600 hour internship in addictions counseling.*

9. **Examples of Supervisors Not Approved:**

- Doctorate degrees that are not in the counseling field or are unaccredited
- Licensed Master Social Worker (LMSW) – with only the exception of the macro- or clinical – designations in the state of Michigan.
- Limited Licensed Professional Counselor (LLPC)
- Master of Divinity
- Pastoral Counselors
- School Counselors
- Licensed Clinical Addiction Specialist (LCAS) – *Only permitted for Addictions Degree, not Clinical Mental Health Counseling. See exception noted above in item #8.*

Practicum and Internship Employment Policy Statement

Practicum and Internship students can perform their practicum or internship experiences with their current employment provided it meets the NCBLCMHC requirements for an appropriate site. To avoid dual relationships between practicum/intern student and employee at a site where they are employed and to ensure they meet the board requirements for site placement employment at your practicum and or internship site must receive special approval. Please consult with the Clinical Coordinator for questions or concerns about this policy.

Approved Site Placement

Once you find a site, begin to work on the placement process via Experiential Learning Cloud. The first step is submitting your resume or curriculum vitae. All students must have a placement site approved by the Clinical Coordinator of Practicum and Internship. **Students who do not have approved sites cannot continue in the site-based experiences.** Securing verification of site approval is the responsibility of the student.

When filling out the Experiential Learning Cloud paperwork, **please put date of Practicum Experience to the date of graduation. For example 1-10-2026 to 12-23, 2026.** By extending the Practicum and Internship dates, students will not have to resubmit paperwork for remaining at the same site.

Once your site has been approved, the supervising faculty member at UMO will reach out to your site supervisor and provide consultation through the site-based process. Additionally, site supervisor professional development opportunities will be provided by the UMO counseling department faculty.

RECAP of Experiential Learning Cloud Requirements:

Before site placement, students must upload a resume, proof of liability insurance, and proof of background check. Students will fill out the Practicum/Internship Agreement and the Site Supervisor Agreement and send it to the site supervisor for signature. Students also need to upload proof of licensure for the site supervisor. Students will be provided with a video tutorial on completing the site process.

Accreditation Standards

The UMO Counseling Clinical Mental Health Counseling has been developed to meet or exceed the 2024 Standards of the Council for Accreditation of Counseling and Related Educational Programs (CACREP). CACREP competencies can be found in Appendix A and Appendix B.

Student Requirements

Professionalism

Students must make time in their schedules for the practicum and internship experience. This includes time to participate in site training and experiences, weekly supervision with your site supervisor, and weekly attendance at group supervision meetings (via Zoom) with your UMO practicum and internship courses. Students are expected to behave professionally and adhere to policies outlined in the site and supervision agreements. Both site and university supervisors will also evaluate students on professional dispositions. A copy of the Professional Dispositions is available in the student handbook and the appendices of this handbook. **Students are responsible for reviewing the dispositions, which will be evaluated based on both skills and dispositions.**

Student Liability Insurance

Professional Student Liability Insurance is required for all practicum and internship students. All students are required to have professional liability insurance throughout their supervised counseling experiences. This expectation is communicated to students in the Practicum and Internship Handbook [p. 13] and in, the Site Supervisor Information Handbook [p. 14], and in the Counseling Practicum and Internship master syllabi [p. 14]

Proof of relevant and current liability insurance documentation must be submitted with practicum and internship applications. Some students obtain insurance from the American Counseling Association (www.counseling.org; liability information on ACA's site: <https://www.counseling.org/membership/membership-savings/liability-insurance>) via Healthcare Provider Services Organization (www.hpso.com/). Students must secure and maintain professional liability coverage of at least \$1,000,000 per occurrence and \$3,000,000 aggregate.

Liability insurance is available with a student membership in one of the following professional organizations. Information about student membership and liability insurance coverage may be obtained from the following websites:

- ACA www.counseling.org
- AMHCA www.amhca.org

Students who do not have liability insurance will not be allowed to continue in practicum or internship. Insurance must be renewed annually, and a current certificate must be on file with UMO for registration in practicum and internship. Proof of insurance includes the policy's Declarations (or cover) page, detailing coverage, and effective coverage dates. Student Certificate of Insurance is uploaded and verified by the Practicum Coordinator via [Experiential Learning Cloud](#). Additionally, students must provide faculty supervisors with proof of insurance before they can begin their internships.

Students who do not have liability insurance will not be allowed to continue in practicum. Insurance must be renewed annually, and a current certificate must be on file with UMO for registration in practicum and internship. Proof of insurance includes the policy's Declarations (or cover) page, detailing coverage, and effective coverage dates. Student Certificate of insurance will be uploaded via [Experiential Learning Cloud](#).

Criminal Background Check

The criminal background check (CBC) policy is a requirement for students entering the practicum/internship phase of the University of Mount Olive's Graduate Counseling degree programs. Background checks have become a requirement in our partnerships and affiliation agreements with practicum/internship sites. Background check receipts from CastleBranch will now be a required part of the application process for the practicum and internship.

To be eligible for practicum or internship, you will submit your application to CastleBranch. Additionally, some state licensure boards require background checks and have stringent background requirements that determine an individual's eligibility for licensure. In most cases, you must clear a criminal background check before entering your professional experience courses (practicum and internship). This requirement is agency specific; however, you should assume this will be necessary as most agencies will require it.

The average cost is \$50 or less and will be paid directly to CastleBranch at the time of applying for a background check. You must complete the background check before starting your practicum/internship experiences and submit the results to the clinical coordinator and your practicum/internship application materials. Once completed you will be uploading the receipt ***only*** to Experiential Learning Cloud.

UMO CastleBranch Page:

<https://portal.castlebranch.com/VG65>

Faculty Group Supervision

During practicum and internship, you will also participate in regular, scheduled group supervision sessions in a classroom format. Group supervision involves "a tutorial and mentoring relationship between a member of the counseling profession and more than two counseling students" (CACREP, 2024, p. 36). Group Supervision in the classroom cannot exceed 12 students per faculty member or teaching assistant. Internship students can count one and a half (1.5) hours of faculty group supervision every week towards group supervision via Zoom. Because we will discuss client-related materials, you must be in a private location. You are not permitted to miss more than 1 group supervision meeting. You will be excused from one absence. A second absence must be made up during the optional Zoom session at the end of the semester. Students who miss more than two Zoom supervision sessions will be subject to remediation and may have to repeat the course. This requirement is part of our program's commitment to meeting or exceeding the CACREP master's level standards and guidelines. CACREP competencies can be found in Appendix A and Appendix B.

Participation in this weekly course is required. Students must be prepared to attend this class privately, with cameras and microphones in use. Students who do not abide by this policy will be marked absent.

Required Site Hours

Students must complete a total of 100 hours of clinical practice for practicum; and 600 hours of clinical practice for internship (approximately 300 hours each of two semesters). Practicum students must complete at least 40 of the 100 clock hours of direct service with clients at their respective sites. Internship students must complete at least 240 of the 600 clock hours of direct service with clients at their respective sites. Please note, students intending to do a 300 hour portion of their internship in addictions counseling will complete a total of 300 hours of direct service with clients (180 hours of direct addictions counseling client contact hours is required for an LCAS-A under UMO's Criteria – C Status) during the internship experience. Students entering the program before Fall 2022 may have a different pathway with Internship. Please speak with your program mentor and academic advisor about your path if you need clarification.

Additionally, during internship, you must gain at least ten hours of experience leading or co-leading a counseling group. A counseling group consists of at least three clients or students who meet three or more times to discuss personal issues.

Direct Contact Hours

Direct client contact/hours, defined by CACREP, are the interaction with clients that includes the application of counseling, consultation, or human development skills. It is the time spent by Practicum or Internship students working directly with clients.

Examples of direct client contact are:

individual counseling

group counseling

psychoeducation groups or workshops

parent or family meetings/counseling

All activities not applications of counseling, consultation, or human development skills will be counted as **indirect or non-direct contact hours/service. This includes group and individual supervision hours.**

Recording Sessions

HIPAA Secure Technology Fee

A one-time fee of \$40.00 is required when enrolling in the COUN 591: Practicum course. This fee covers the cost of using the HIPAA secure video recording platform provided through Experiential Learning Cloud for recording counseling sessions with clients during the professional experience courses. This fee will be billed through UMO and charged directly to your account.

At least six (3) video/audio recordings are required during your site-based experience (one during practicum and one during each internship semester). Other options are available if you are in a placement that does not allow recordings.

Examples of other options:

- You will only record and share a session with your site supervisor.
- Your site supervisor will observe a live session and provide feedback following the session. (Feedback form in Experiential Learning Cloud).
- Your site supervisor will role-play a client, and you will tape the role-play session.

In compliance with the CACREP standards, students cannot accumulate practicum/internship hours during semester breaks as the academic programs cannot provide required group supervision. Students cannot get internship hours until they have successfully passed practicum.

Evaluations

Evaluations are conducted during each semester of practicum and internship. The first Site Supervisor evaluation is completed at the mid-point of the course and again at each academic term's end. The Student Self-evaluation and Faculty Evaluation are conducted at the end of each semester. Grades for practicum and internship are either Pass (P) or Fail (F). Students who earn an F grade are automatically withdrawn from the Counseling Program and the University and must reapply to the Program. Readmission to the program is at the discretion of the Counseling Program Faculty.

The UMO Counseling Program uses the CCS-R as the primary evaluative tool for evaluating students' progress in practicum and internship courses. Students must understand that the primary evaluation of student progress and final grades in practicum/internship courses is the evaluation site supervisors will provide at the mid and end of the term. This evaluation supersedes course room academic assignment grades in the event a student receives unsatisfactory scores (1s & 2s) on

any part of the CCS-R assessment and at any point in the practicum/internship experience.

Counselor Competencies Scale – Revised (CCS-R)

The Counselor Competencies Scale – Revised (CCS-R) is a research-based rating scale that many graduate counseling programs use to evaluate counseling students' progress in their programs and practicum/internship placements. The University of Mount Olive Counseling Department uses this scale to assess students' progress in their professional experience courses (practicum/internship). Site Supervisors access and fill out the CCS-R in students' Experiential Learning Cloud accounts twice (mid-term evaluation and final evaluation) during each semester they are enrolled in practicum and internship courses. Students must receive a combined score of **no less than 48/60** on the ***Part 1: Counseling Skills & Therapeutic Conditions*** portion of the scale and a combined score of **no less than 44/55** on the ***Part 2: Counseling Dispositions & Behaviors*** portion of the scale to pass clinical courses, regardless of course assignment grades. Any rating of **Below Expectations/Unacceptable (2)** or **Harmful (1)** on any portion of the CCS-R on either a mid-term or final evaluation will result in the formation of a remediation plan to address strategies for improvement. Should the student deny or refuse remedial measures, they will receive a grade of "F" for the course and be withdrawn from the program and the university.

A copy of the CCS-R can be found in the Appendix F of this manual.

Faculty Instructor/Supervisor & Site Supervisor Engagement

During professional experience courses (practicum & internship) students will be working under the supervision of both a site supervisor and a faculty supervisor who is the assigned instructor for the practicum or internship course. The faculty supervisor will reach out to the site supervisor several times throughout the semester when a student is enrolled in practicum/internship for verbal feedback on the student's progress. These may be formal or informal contacts with or without the student present. Site supervisors may reach out to the faculty supervisor at any time for any reason concerning the student's progress.

Removal from a Site Placement

At any point in the professional experience a student may be removed from an assigned site placement by the faculty supervisor, clinical coordinator or department chair. Removal from a site may also occur upon the site supervisor's request and/or the student's request depending on the concern(s). Removal from a site may occur for reasons deemed necessary for public safety, the well-being of the student, the well-being of the placement site, or site placement-supervisor/student

mismatch. Should removal for any reason not requested by the student occur, the student will be notified immediately by any of the above-mentioned professionals. If the removal is due to clinical competency or professional dispositional concerns, remedial measures will be implemented to address them before the student returns to professional experience courses. Should removal result from a “poor fit” or “mismatch” between the student and the practicum site/supervisor, the student will be required to find a new, appropriate site before continuing in the professional experience course. Depending on the timing,, a grade of “incomplete” or “withdrawal” may be assigned for the practicum/internship course in which the student is enrolled.

Emergency Procedures

In case of emergency please contact your site supervisor immediately. After consulting with your site supervisor (or if you are unable to reach your site supervisor), call your course instructor. The Professional Experience Clinical Coordinator may also be consulted during this process.

Practicum and Internship Application Deadlines

-  Enrolling for internship in the **Fall Semester** the deadline for site selection is **June 20th**, the deadline for all paperwork being completed in Experiential Learning Cloud is **August 5th**
-  Enrolling in the **Spring Semester** for practicum and internship the deadline for site selection is **November 20th**, the deadline for all paperwork being completed in Experiential Learning Cloud is **December 5th**
-  Enrolling in the **Summer Semester** for practicum and internship the deadline for site selection is **March 20th**, the deadline for all paperwork being completed in Experiential Learning Cloud is **May 5th**

Please note that the Clinical Coordinator will be flexible with you if you are having challenges securing a site, that said if you have not found one by the paperwork deadline you will have to delay your practicum or internship to the following semester.

Services

Experiential Learning Cloud (Formerly Tevera)

Please note that the Department of Counseling uses a comprehensive student learning outcome assessment process via a software system called [Experiential Learning Cloud](#). Experiential Learning Cloud monitors and tracks student learning and progress on an individual and program basis, initiates and monitors the field placement process, documents internship hours at sites, and provides students with permanent access to their personal information. Our evaluation process is also an essential element of accreditation and key to expediting the licensing process post-graduation.

Once you begin the site approval process, you and your site supervisor must work together to submit the following information. Please note you will not be able to work on the application until you have uploaded your CV (Curriculum Vitas) or Resume, and it has been approved. Once a category has been approved a  will appear in the right-hand column. When filling out the Experiential Learning Cloud paperwork, **please put date of Practicum Experience to the date of graduation. For example 1-10-2026 to 12-23-2026.** By extending the Practicum and Internship dates, you will not have to resubmit paperwork to remain at the same site.

CastleBranch

The criminal background check (CBC) policy is a requirement for students entering the practicum/internship phase of the University of Mount Olive's Graduate Counseling degree programs. Background checks have become a requirement in our partnerships and affiliation agreements with practicum/internship sites. Because of this change in climate, background check receipts from CastleBranch will now be a required part of the application process for the practicum and internship. To be eligible for a practicum or internship application, you will submit your application to CastleBranch. Additionally, some state licensure boards require background checks and have stringent background requirements that determine an individual's eligibility for licensure.

- For practicum/internship application, students must submit a copy of the receipt from CastleBranch as proof of purchase of the background check package. The criminal background check portion of the package must have been completed within one calendar year of the first day of the academic semester in which the student is applying for practicum or internship.
- Candidates are responsible for any fees associated with any available background packages. Full background checks take approximately 3- 5 days from submission of forms to receive a report (clearance/non-clearance). Completing the application early is important to meet the practicum/internship application deadline.
- CastleBranch supports this service. All fees associated with the available background packages will be paid directly to CastleBranch.
- Some practicum/internship sites may require students to undergo a drug screen or additional background check as part of that site's screening process. If this is the case for your potential practicum/internship site, then CastleBranch has an option drug screen packet that may be purchased if your site requires a drug screen. UMO does not require drug screening as part of its practicum/internship application process. Students will need to check with their site regarding the requirement of an additional background check or screening and are responsible to complete those with the site.
- Letters from schools, agencies, or courthouse background checks are not acceptable replacements for the required follow-up comprehensive criminal background check. However, the only exception to completing the follow-up

with CastleBranch is if the practicum or internship site requires their own comprehensive criminal background check (i.e., like CastleBranch's initial criminal background check and not a yes/no questionnaire), and the student can provide a copy of the criminal background check results to the appropriate University Clinical Coordinator prior to beginning practicum and/or internship.

- Be aware that students with any arrests, dismissals, or convictions, will need to write a full explanation including circumstances, court disposition, any penalties such as community services, and lessons learned, that provide assurances that there will be no further problems. Court documents may also be required. More complex issues will be forwarded to a full counseling faculty review to decide if placement should even be attempted. Again, planning on your part will facilitate the field placement process.

At UMO we offer both in-state and out-of-state packages. The out-of-state options are only for students who reside in a different state or plan to do their practicum or internship outside of NC.

All students will have a CBC before starting at your site, including the following.

- Statewide Criminal NC or Out-of-State
- Nationwide Healthcare Fraud and Abuse Scan
- Nationwide Record Indicator Alias with SOI
- Social Security Alert
- Residency History
- Drug Screening is available, if required by the site.

The following is a link to see the UMO CastleBranch CBC process, followed by what the page will look like when you enter the site:

<https://portal.castlebranch.com/VG65>

Please Select

VG66bgdtin: In-state Student & I need a Background Check & Drug Test

VG66bgdtout: Out-of-State Student & I need a Background Check & Drug Test

VG66bgjin: In-State Student & I need a Background Check

VG66bgjout: Out-of-State Student & I need a Background Check

VG66dtt: I need a Drug Test

A **receipt of the criminal background** check is to be uploaded into Experiential Learning Cloud as part of the Practicum/Internship Application.

Practicum and Internship Information

UMO Counseling Department

Required Items Checklist

The following is a checklist of items required for practicum. All materials must be submitted in **Experiential Learning Cloud**. More information will be forthcoming from the University; please pay close attention to your campus email.

Site Application

- ☐ Site Profile Form
- ☐ UMO Site Partnership Agreement
- ☐ Proof of Liability Insurance (certificate obtained from the carrier)
- ☐ Proof of Criminal Background Check (upload copy of receipt)

Site Supervisor Application

- ☐ Supervision Information Form
- ☐ Supervisor upload Proof of License
- ☐ Site Supervisor Orientation Form
- ☐ Supervision Agreement

Appendices

Appendix A - CACREP Competencies

CACREP Core Competencies

1. PROFESSIONAL COUNSELING ORIENTATION AND ETHICAL PRACTICE

- a. history and philosophy of the counseling profession and its specialized practice areas
- b. the multiple professional roles and functions of counselors across specialized practice areas
- c. counselors' roles, responsibilities, and relationships as members of specialized practice and interprofessional teams, including
 - (1) collaboration and consultation
 - (2) community outreach
 - (3) emergency response management
- d. the role and process of the professional counselor advocating on behalf of and with individuals receiving counseling services to address systemic, institutional, architectural, attitudinal, disability, and social barriers that impede access, equity, and success
- e. the role and process of the professional counselor advocating on behalf of the profession
- f. professional counseling organizations, including membership benefits, activities, services to members, and current issues
- g. professional counseling credentialing across service delivery modalities, including certification, licensure, and accreditation practices and standards for all specialized practice areas
- h. legislation, regulatory processes, and government/public policy relevant to and impact on service delivery of professional counseling across service delivery modalities and specialized practice areas
- i. current labor market information and occupational outlook relevant to opportunities for practice within the counseling profession
- j. ethical standards of professional counseling organizations and credentialing bodies, and applications of ethical and legal considerations in professional counseling across service delivery modalities and specialized practice areas
- k. self-care, self-awareness, and self-evaluation strategies for ethical and effective practice
- l. the purpose of and roles within counseling supervision in the profession

2. SOCIAL AND CULTURAL IDENTITIES AND EXPERIENCES

- a. theories and models of multicultural counseling, social justice, and advocacy
- b. the influence of heritage, cultural identities, attitudes, values, beliefs, understandings, within-group differences, and acculturative experiences on individuals' worldviews

- c. the influence of heritage, cultural identities, attitudes, values, beliefs, understandings, within-group differences, and acculturative experiences on help-seeking and coping behaviors
- d. the effects of historical events, multigenerational trauma, and current issues on diverse cultural groups in the U.S. and globally
- e. the effects of stereotypes, overt and covert discrimination, racism, power, oppression, privilege, marginalization, microaggressions, and violence on counselors and clients
- f. the effects of various socio-cultural influences, including public policies, social movements, and cultural values, on mental and physical health and wellness
- g. disproportional effects of poverty, income disparities, and health disparities toward people with marginalized identities
- h. principles of independence, inclusion, choice and self-empowerment, and access to services within and outside the counseling relationship
- i. strategies for identifying and eliminating barriers, prejudices, and processes of intentional and unintentional oppression and discrimination
- j. guidelines developed by professional counseling organizations related to social justice, advocacy, and working with individuals with diverse cultural identities
- k. the role of religion and spirituality in clients' and counselors' psychological functioning

3. LIFESPAN DEVELOPMENT

- a. theories of individual and family development across the lifespan
- b. theories of cultural identity development
- c. theories of learning
- d. theories of personality and psychological development
- e. theories and neurobiological etiology of addictions
- f. structures for affective relationships, bonds, couples, marriages, and families
- g. models of resilience, optimal development, and wellness in individuals and families across the lifespan
- h. models of psychosocial adjustment and adaptation to illness and disability
- i. the role of sexual development and sexuality related to overall wellness
- j. biological, neurological, and physiological factors that affect lifespan development, functioning, behavior, resilience, and overall wellness
- k. systemic, cultural, and environmental factors that affect lifespan development, functioning, behavior, resilience, and overall wellness
- l. the influence of mental and physical health conditions on coping, resilience, and overall wellness for individuals and families across the lifespan
- m. effects of crises, disasters, stress, grief, and trauma across the lifespan

4. CAREER DEVELOPMENT

- a. theories and models of career development, counseling, and decision-making
- b. approaches for conceptualizing the interrelationships among and between work, socioeconomic standing, wellness, disability, trauma, relationships, and other life roles and factors
- c. processes for identifying and using career, avocational, educational, occupational, and labor market information resources, technology, and information systems
- d. approaches for assessing the conditions of the work environment on clients' life experiences
- e. strategies for assessing abilities, interests, values, personality, and other factors that contribute to career development
- f. career development program planning, organization, implementation, administration, and evaluation
- g. developmentally responsive strategies for empowering individuals to engage in culturally sustaining career and educational development and employment opportunities
- h. strategies for advocating for employment support for individuals facing barriers in the workplace
- i. strategies for facilitating client skill development for career, educational, and life-work planning and management
- j. career and postsecondary training readiness and educational decision-making
- k. strategies for improving access to educational and occupational opportunities for people from marginalized groups
- l. ethical and legal issues relevant to career development and career counseling

5. COUNSELING PRACTICE AND RELATIONSHIPS

- a. theories and models of counseling, including relevance to clients from diverse cultural backgrounds
- b. critical thinking and reasoning strategies for clinical judgment in the counseling process
- c. case conceptualization skills using a variety of models and approaches
- d. consultation models and strategies
- e. application of technology related to counseling
- f. ethical and legal issues relevant to establishing and maintaining counseling relationships across service delivery modalities
- g. culturally sustaining and responsive strategies for establishing and maintaining counseling relationships across service delivery modalities
- h. counselor characteristics, behaviors, and strategies that facilitate effective counseling relationships
- i. interviewing, attending, and listening skills in the counseling process
- j. counseling strategies and techniques used to facilitate the client change process

- k. strategies for adapting and accommodating the counseling process to client culture, context, abilities, and preferences
- l. goal consensus and collaborative decision-making in the counseling process
- m. developmentally relevant and culturally sustaining counseling treatment or intervention plans
- n. development of measurable outcomes for clients
- o. evidence-based counseling strategies and techniques for prevention and intervention
- p. record-keeping and documentation skills
- q. principles and strategies of caseload management and the referral process to promote independence, optimal wellness, empowerment, and engagement with community resources
- r. classification, effects, and indications of commonly prescribed psychopharmacological medications
- s. suicide prevention and response models and strategies
- t. crisis intervention, trauma-informed, community-based, and disaster mental health strategies
- u. processes for developing a personal model of counseling grounded in theory and research

6. GROUP COUNSELING AND GROUP WORK

- a. theoretical foundations of group counseling and group work
- b. dynamics associated with group process and development
- c. therapeutic factors of group work and how they contribute to group effectiveness
- d. characteristics and functions of effective group leaders
- e. approaches to group formation, including recruiting, screening, and selecting members
- f. application of technology related to group counseling and group work
- g. types of groups, settings, and other considerations that affect conducting groups
- h. culturally sustaining and developmentally responsive strategies for designing and facilitating groups
- i. ethical and legal considerations relative to the delivery of group counseling and group work across service delivery modalities
- j. direct experiences in which counseling students participate as group members in a small group activity, approved by the program, for a minimum of 10 clock hours over the course of one academic term

7. ASSESSMENT AND DIAGNOSTIC PROCESSES

- a. historical perspectives concerning the nature and meaning of assessment and testing in counseling
- b. basic concepts of standardized and non-standardized testing, norm-referenced and criterion-referenced assessments, and group and individual assessments

- c. statistical concepts, including scales of measurement, measures of central tendency, indices of variability, shapes and types of distributions, and correlations
- d. reliability and validity in the use of assessments
- e. culturally sustaining and developmental considerations for selecting, administering, and interpreting assessments, including individual accommodations and environmental modifications
- f. ethical and legal considerations for selecting, administering, and interpreting assessments
- g. use of culturally sustaining and developmentally appropriate assessments for diagnostic and intervention planning purposes
- h. use of assessments in academic/educational, career, personal, and social development
- i. use of environmental assessments and systematic behavioral observations
- j. use of structured interviewing, symptom checklists, and personality and psychological testing
- k. diagnostic processes, including differential diagnosis and the use of current diagnostic classification systems
- l. procedures to identify substance use, addictions, and co-occurring conditions
- m. procedures for assessing and responding to risk of aggression or danger to others, self-inflicted harm, and suicide
- n. procedures for assessing clients' experience of trauma
- o. procedures for identifying and reporting signs of abuse and neglect
- p. procedures to identify client characteristics, protective factors, risk factors, and warning signs of mental health and behavioral disorders
- q. procedures for using assessment results for referral and consultation

8. RESEARCH AND PROGRAM EVALUATION

- a. the importance of research in advancing the counseling profession, including the use of research to inform counseling practice
- b. identification and evaluation of the evidence base for counseling theories, interventions, and practices
- c. qualitative, quantitative, and mixed methods research designs
- d. practice-based and action research methods
- e. statistical tests used in conducting research and program evaluation
- f. analysis and use of data in research
- g. use of research methods and procedures to evaluate counseling interventions
- h. program evaluation designs and procedures, including needs assessments, formative assessments, and summative assessments to inform decision-making and advocacy
- i. culturally sustaining and developmentally relevant outcome measures for counseling services

- j. ethical and legal considerations relevant to conducting, interpreting, and reporting the results of research and program evaluation
- k. culturally sustaining and developmentally responsive strategies for conducting, interpreting, and reporting the results of research and program evaluation

CACREP Entry-Level Specialized Practice Areas

All entry-level students are enrolled in at least one specialized practice area. Students are expected to develop and demonstrate the knowledge and skills necessary to address a wide range of issues in their specialized practice area in consideration of culturally sustaining practices across service delivery modalities.

1. ADDICTION COUNSELING

- a. neurological, behavioral, psychological, physical, and social effects of psychoactive substances and addictive disorders on the user and significant others
- b. risk and protective factors for substance use disorders
- c. assessment for symptoms of psychoactive substance toxicity, intoxication, and withdrawal
- d. strategies for enhancing client motivation to change, managing cravings, and preventing relapse
- e. abstinence and harm reduction models of addiction recovery
- f. evaluating and identifying individualized strategies and treatment modalities relative to substance use disorder severity, stages of change, or recovery
- g. pharmacological interventions used to address substance use withdrawal, craving, and relapse prevention
- h. substance use recovery service delivery modalities and networks within the continuum of care, such as primary care, outpatient, partial treatment, inpatient, integrated behavioral healthcare, and aftercare
- i. recovery support tools and systems, to include vocation, family, social networks, and community systems in the addiction treatment and recovery process
- j. culturally and developmentally relevant education programs that raise awareness and support addiction and substance use prevention and the recovery process
- k. regulatory processes, continuum of care, and service delivery in addiction counseling
- l. strategies for interfacing with the legal system and working with court-referred clients
- m. third-party reimbursement and other practice and management issues in addictions counseling

2. CAREER COUNSELING

- a. factors that affect clients' attitudes toward work and their career decision-making processes
- b. the unique needs and characteristics of diverse clients with regard to career exploration, employment expectations, and socioeconomic issues
- c. implications of gender roles and responsibilities for employment, education, family, and leisure

- d. impact of globalization on careers and the workplace
- e. education, training, employment trends, and labor market information and resources that provide information about job tasks, functions, salaries, requirements, and future outlooks related to broad occupational fields and individual occupations
- f. approaches and resources relevant to diverse clients acquiring a set of career planning, employability, job search, job creation, and life-work role transition skills
- g. strategies to assist clients in the appropriate use of technology for career information and planning
- h. strategies to market and promote career counseling resources and services
- i. third-party reimbursement and other practice and management issues in clinical mental health counseling

3. CLINICAL MENTAL HEALTH COUNSELING

- a. etiology, nomenclature, diagnosis, treatment, referral, and prevention of mental, behavioral, and neurodevelopmental disorders
- b. mental health service delivery modalities and networks within the continuum of care, such as primary care, outpatient, partial treatment, inpatient, integrated behavioral healthcare, and aftercare
- c. legislation, government policy, and regulatory processes relevant to clinical mental health counseling
- d. intake interview, mental status evaluation, biopsychosocial history, mental health history, and psychological assessment for treatment planning and caseload management
- e. techniques and interventions for prevention and treatment of a broad range of mental health issues
- f. strategies for interfacing with the legal system regarding court-referred clients
- g. strategies for interfacing with integrated behavioral healthcare professionals
- h. strategies to advocate for people with mental, behavioral, and neurodevelopmental conditions
- i. third-party reimbursement and other practice and management issues in clinical mental health counseling

4. CLINICAL REHABILITATION COUNSELING

- a. effects of the onset, progression, and expected duration of disability on clients' holistic functioning
- b. environmental, attitudinal, and individual barriers for people with disabilities
- c. impact of disability on sexuality
- d. rehabilitation service delivery systems, including housing, independent living, case management, public benefits programs, educational programs, and public/proprietary vocational rehabilitation programs

- e. clinical rehabilitation counseling services within the continuum of care, such as inpatient, outpatient, partial hospitalization and aftercare, integrated behavioral healthcare, and the rehabilitation counseling services networks
- f. transferable skills, functional assessments, and work-related supports for achieving and maintaining meaningful employment for people with disabilities
- g. role of family, social networks, and community in the provision of services for and treatment of people with disabilities
- h. assistive technology to reduce or eliminate barriers and functional limitations
- i. intake interview, mental status evaluation, biopsychosocial history, mental health history, and psychological assessment for treatment planning and caseload management for people with disabilities
- j. strategies to advocate for people with disabilities related to accessibility, accommodations, and disability law adherence
- k. third-party reimbursement and other practice and management issues in clinical rehabilitation counseling

5. COLLEGE COUNSELING AND STUDENT AFFAIRS

- a. principles of student development and the effect on life, education, and career choices
- b. organizational, management, and leadership theories relevant in higher education settings
- c. organizational culture, budgeting and finance, and personnel practices in higher education
- d. current trends in higher education
- e. diversity of higher education environments
- f. the influence of institutional, systemic, interpersonal, and intrapersonal barriers on learning and career opportunities in higher education
- g. policies, programs, and services that are equitable, preventative, and responsive to the unique needs of students in higher education settings
- h. higher education resources to improve student learning, personal growth, professional identity development, and mental health
- i. models of threat assessment and violence prevention in higher education settings
- j. roles of college counselors and student affairs professionals in collaborating with personnel from other educational settings to facilitate college and postsecondary transitions

6. MARRIAGE, COUPLE, AND FAMILY COUNSELING

- a. sociology of the family, family phenomenology, and family of origin theories
- b. aging and intergenerational influences and related family concerns
- c. impact of interpersonal violence on marriages, couples, and families
- d. interactions of career, life, and gender roles in marriages, couples, and families

- e. impact of unemployment, under-employment, and changes in socioeconomic standing on marriages, couples, and families
- f. the impact of migration on family functioning
- g. theories and models of marriage, couple, and family counseling
- h. principles and models of assessment and case conceptualization from a systems perspective
- i. family assessments, including genograms and family mapping
- j. techniques and interventions of marriage, couple, and family counseling
- k. conceptualizing and implementing treatment, planning, and intervention strategies in marriage, couple, and family counseling
- m. service delivery modalities and networks within the continuum of care, such as primary care, outpatient, partial treatment, inpatient, integrated behavioral healthcare, and aftercare
- n. strategies for interfacing with the legal system relevant to marriage, couple, and family counseling
- o. third-party reimbursement and other practice and management issues in marriage, couple, and family counseling

7. REHABILITATION COUNSELING

- a. individual response to disability, including the role of families, communities, and other social networks
- b. strategies to enhance adjustment and adaptation to disability
- c. effects of socioeconomic trends, public policies, stigma, access, and attitudinal barriers as they relate to disability
- d. principles of independent living, self-determination, and informed choice
- e. rehabilitation counseling services and organizational settings, including independent living, community rehabilitation, and public/proprietary vocational rehabilitation programs
- f. benefit systems used by individuals with disabilities, including but not limited to Social Security, governmental monetary assistance, workers' compensation insurance, long-term disability insurance, and veterans' benefits
- g. classification, terminology, etiology, functional capacity, and prognosis of disabilities
- h. career- and work-related assessments, including job analysis, worksite modification, transferable skills analysis, job readiness, and work hardening
- i. evaluation and application of assistive technology with an emphasis on individualized assessment and planning
- j. career development and employment models and strategies for achieving and maintaining meaningful employment for people with disabilities
- k. strategies to analyze work activity and labor market data and trends to facilitate the match between an individual with a disability and targeted jobs
- l. case management strategies that facilitate rehabilitation and independent living planning

- m. consultation and collaboration with employers regarding the legal rights and benefits of hiring individuals with disabilities, including Americans with Disabilities Act adherence, accommodations, universal design, and workplace disability prevention
- n. strategies to promote self-advocacy skills of individuals with disabilities
- o. facilitating client knowledge of and access to community and technology services and resources
- p. strategies to advocate on behalf of people with disabilities as related to disability and disability legislation

8. SCHOOL COUNSELING

- a. models of school counseling programs
- b. models of PK-12 comprehensive career development
- c. models of school-based collaboration and consultation
- d. development of school counseling program mission statements and objectives
- e. design and evaluation of school counseling curriculum, lesson plan development, diverse classroom management strategies, and differentiated instructional strategies
- f. school counselor roles as leaders, advocates, and systems change agents in PK-12 schools
- f. qualities and styles of effective leadership in schools
- g. advocacy for comprehensive school counseling programs and associated school counselor roles
- h. school counselor roles and responsibilities in relation to the school crisis and management plans
- i. school counselor consultation with families, PK-12 and postsecondary school personnel, community agencies, and other referral sources
- j. skills to critically examine the connections of social, cultural, familial, emotional, and behavioral factors to academic achievement
- k. skills to screen PK-12 students for characteristics, risk factors, and warning signs of mental health and behavioral disorders
- l. strategies for implementing and coordinating school-based interventions
- m. techniques of social-emotional and trauma-informed counseling in school settings
- n. evidence-based and culturally sustaining interventions to promote academic development
- o. approaches to increase promotion and graduation rates
- p. interventions to promote postsecondary and career readiness
- q. strategies to facilitate school and postsecondary transitions
- r. strategies to promote equity in student achievement and access to postsecondary education opportunities

Appendix B - Counseling Program Professional Dispositions

The University of Mount Olive Counseling Program strives to make positive contributions to the counseling profession by admitting, educating, developing, retaining, and graduating students who are a good professional and dispositional fit for becoming capable, effective, and ethical counselors. Faculty are ethically bound to serve as gatekeepers of the counseling profession, as academics alone do not determine success and ethical behavior in the field. Aside from the academic standards and policies the university requires of graduate students, being a counselor-in-training also requires students to be regularly evaluated throughout the course of the program on additional factors that reflect ethical goodness of fit for the profession.

Formal and informal feedback from professors and site supervisors will regularly examine, review, and evaluate students' non-academic dispositional factors, attitudes, skills, judgments, and related characteristics to discern appropriateness for the field and the counseling profession. These assessments are made throughout the student journey from the application process, throughout coursework, and into the professional experience in practicum and internship.

Dispositional issues and concerns may reveal themselves throughout any point of the graduate program. As such, faculty discuss student progress on a regular basis - both formally and informally, and the student's faculty advisor serves as the point of contact for instances where dispositional issues need to be addressed. In cases where faculty determine there is a student concern of a dispositional nature, a plan of action is determined to address remediation, and is then followed by a re-evaluation process.

ONGOING FACULTY ASSESSMENT:

Counseling departmental faculty meetings include a standard agenda item that addresses student concerns and/or issues. This allows all faculty members to be aware of any potentially problematic issues around grades, behaviors, and dispositions for students in the program. Suppose a student's concern is repetitive or severe. In that case, faculty address the issue collaboratively and provide recommendations accordingly up to and including meeting with the student, issuing written feedback/warning, potential referrals to counseling, and/or removal from the program.

DISPOSITIONAL AWARENESS / COURSE DISCUSSIONS AND ASSIGNMENTS:

Students are made aware of the concept of dispositions during the interview process, orientation meetings, and during a review of the student handbook with faculty advisors. Students sign and submit an acknowledgment that they have read and understand these dispositions. Professional dispositions are also addressed in readings, assignments, and class discussions during first-semester courses (COUN 500 Professional Identity, Ethical, and Legal Issues in Counseling; COUN 510 Theories of Counseling; COUN 520 Multicultural Counseling; COUN 560 - Human

Growth and Development - as well as an informal evaluation during COUN 610 - Counseling Techniques & Helping Relationships). If students self-identify as having potential dispositional issues, faculty follow up with students directly via feedback, meetings, and collaborative faculty discussions. A dispositional follow-up plan is co-created with the faculty and student to address any potential remediation that must take place before continuing in the program. Remediation plans will be acknowledged through signature by the student, faculty member, and faculty advisor. A copy will be provided to all parties and the student's academic advisor in the University's Office of Adult & Graduate Programs.

COUNSELOR-IN-TRAINING PROFESSIONAL DISPOSITIONS

Dispositions are the values, commitments, and professional ethics that influence behaviors toward others, and, if sincerely held, dispositions lead to actions and patterns of professional conduct. The University of Mount Olive's Counseling Program dispositions adhere to the University's mission statement and are derived from the American Counseling Association (ACA) Code of Ethics. Although these dispositions are not all inclusive, they do represent values and qualities warranted by counseling students. Students who fail to adhere to or demonstrate such dispositions may be subject to disciplinary actions.

1. **Professional Identity & Ethics** – Adheres to regulatory state boards and nationally recognized ethical guidelines (e.g., ACA, AMHCA, NBCC, etc.). Practices only within their scope and competencies are utilizing best practices and empirically supported treatments. Stay current with the counseling profession by seeking continuing education and supporting counseling associations.
2. **Professional Behavior** – Behaves professionally towards instructors, staff, supervisors, peers, and clients (including appropriate dress & attitudes). Demonstrates the ability to collaborate respectfully.
3. **Professional and Personal Boundaries** – Maintains appropriate boundaries with instructors, staff, supervisors, peers, and clients.
4. **Self-Awareness** - Demonstrates awareness of personal moral, ethical, and value systems and is acutely aware of personal limitations in all counseling interactions providing counseling services with objectivity, justice, fidelity, veracity, and benevolence.
5. **Multicultural Competencies** – Demonstrates awareness, appreciation, and respect for cultural differences (e.g., race, ethnicity, spirituality, sexual and gender orientation, disability, SES, etc.)
6. **Emotional Stability & Self-Control** – Demonstrates emotional stability (i.e., congruence between mood & affect) and self-control (i.e., impulse control) in relationships with instructors, staff, supervisors, peers, and clients.

7. **Motivation to Learn & Grow/Initiative** – Demonstrates engagement in learning and development of his or her counseling competencies.
8. **Openness to Giving & Receiving Feedback** - Accepts feedback from- and provides feedback to peers in an amiable and respectful manner. Responses non-defensively and alters behavior in accordance with feedback from instructors and supervisors.
9. **Flexibility & Adaptability** – Demonstrates ability to flex to changing circumstances, unexpected events, and new situations.
10. **Congruence & Genuineness** – Demonstrates ability to be present and “true to oneself.”
11. **Knowledge & Adherence to Policies** – Demonstrates understanding and appreciation for all counseling program and site policies and procedures. Seeks clarification from faculty and supervisors when uncertainty arises.
12. **Record Keeping, Task Completion** – Completes all weekly record keeping and tasks correctly and promptly (e.g., case notes, treatment plans, and reports).

Appendix C - Experiential Learning Cloud Instructions for Pre-Practicum/Internship Process

I. How to complete and submit the practicum/internship field placement application:

1. On your Experiential Learning Cloud homepage, click **My Sites** in the **Site Placements** tile;
2. Click the **Tasks** button under **Pre-application Paperwork**;
3. You will first need to complete the application. Click on the application name (either **Practicum Application** or **Internship Application**), then click **Open**;
4. Fill out all the required fields, then sign where it says **Student Signature** towards the bottom (if you are prompted to use your password to sign, click the button with the pencil on it to switch to signing with your cursor or finger/stylus if using a mobile device);
5. Click the **Submit** button at the bottom of the form, select your Academic Advisor's name from the drop-down menu in the pop-up window, then click **Submit** again;
6. Once the form is submitted, it will automatically bring you back to the **Pre-Application Tasks** menu, where you can upload your academic audit (see next set of instructions).

Once you begin the site approval process, you and your site supervisor must work together to submit the following information. Please note that you cannot work on the application until you have uploaded your CV or Resume and it has been approved. Once a category has been approved, it will appear in the right-hand column.

Pre-Application	
Upload CV	
Site Application	
new Site Profile Form	
new site Partnership Agreement	
new upload Proof of Liability Insurance	
new upload Proof of Criminal Background Check	
Site Supervisor Application	
new supervision Contract	
new supervisor Information Form	
new supervisor to Upload Resume and Proof of License	

II. How to select your site/supervisor and complete the field placement agreement (for sites already approved):

1. On your Experiential Learning Cloud homepage, click **My Sites** in the **Site Placements** tile;
2. Click the **+** where it says **Add Placement**;
3. Select your site from the list by clicking the **Start** button next to its name (you can filter alphabetically or search for the site);
4. When the pop-up appears asking if you want to begin paperwork, click the **Yes, I'm ready** button;
5. Select your site supervisor from the list by clicking **Start** next to their name;
-if your supervisor does not appear on the list, click the **Suggest a Supervisor** button at the bottom of the page, enter in the person's name, and click **I'm Ready**. This will add your supervisor to the system and generate an e-mail invitation to them once they are approved by our Professional Experiences Coordinator.
6. When the pop-up appears asking if you want to begin paperwork, click the **Yes, I'm ready** button, which will redirect you to the following menu for site/supervisor information;
7. Click on the agreement name (either **Practicum Field Placement Agreement** or **Internship Field Placement Agreement**), then click **Open**;
8. Fill out all the required fields, click **Submit** at the bottom of the form, then select your site supervisor from the drop-down menu as the 1st signer (Clinical Coordinator will be the default 2nd signer); click **Submit** again, which will bring you back to the previous screen;
9. For a supervisor already registered in Experiential Learning Cloud **Semester Dates** from the menu, then click **Open**; (for an unregistered supervisor refer to steps 11-12)
10. Enter the first day of the semester as the start date and the last day of the semester as the end date; click **Submit**, a pop-up will appear with a default signed already selected; then click **Submit** again to go back to the previous screen which completes the process.
11. For an unregistered supervisor click **Supervisor & Semester Info**, then click **Open**;
12. Enter the supervisors first name, last name, and e-mail address, and then enter the first day of the semester as the start date and the last day of the semester as the end date; click **Submit**, a pop-up will appear with a default signed already selected, then click **Submit** again to go back to the previous screen which completes the process.

Appendix E - Definition of Hours for Practicum and Internship

Students in practicum and internships keep track of their hours on an Hours Log (found in Forms section), until Experiential Learning Cloud is fully implemented, which is submitted weekly and at the end of the semester to verify that the minimum class requirements. One hundred hours (40 direct) per semester are required for Practicum, and 600 (240 direct) are required for Internship. Verification of the Hours Log is also important for later confirming to the NC Licensed Clinical Mental Health Counseling Board the total number of supervised hours that were earned during site-based professional experience. **Please note** no hours can be carried over from Practicum to Internship courses.

Students seeking an additional license as an Licensed Clinical Addictions Specialist (LCAS-A) need to ensure that 300 hours of their internship placement is spent providing addictions counseling services (180 hours direct client contact hours) with a minimum of 30 hours of supervision by a Certified Clinical Supervisor (CCS) or Clinical Supervisor Intern (CSI). These hours must be logged in a separate program in Experiential Learning Cloud identified as "Addictions Internship". Please meet with your faculty instructor to ensure these hours are logged appropriately.

The Hours Log has several columns for indicating the several types of qualifying activities that the student may count toward the total amount of service at the site. To ensure that there is good understanding of what qualifies under each of these categories the following definitions are provided:

Direct Client Hours (A minimum of 40 for Practicum and 240 for Internship):

The entries in these columns reflect the hours spent in direct client care (individual, family, and group counseling). These may include one-on one counseling and co-counseling/facilitating (individuals and groups) - the key is that the student is actively and independently counseling alone, or together with another counselor. Shadowing a supervisor, or another more experienced counselor does not count as direct hours. It may count as Other Professional Activity Hours (under the Non-Direct Hours column).

Non-Direct Hours:**Supervision:**

The program requirements state that the student must participate in at least one hour per week of supervision. To ensure that such supervision is facilitated, it is advised that a regularly scheduled hour be used with the student's assigned supervisor. Additional supervision hours, beyond these required ones, may include group supervision at the site and any additional supervision with a licensed supervisor there. Class hours cannot be counted into the site experience hours.

Students seeking an additional license as an Licensed Clinical Addictions Specialist (LCAS-A) must complete a minimum of 30 hours of supervision by a Certified Clinical Supervisor (CCS) or Clinical Supervisor Intern (CSI).

Other Professional Activities:

There are activities associated with the site assignment that count as Non-Direct Hours. These include documentation of client sessions (individual and group), any training arranged for by the site, preparation for sessions (for example creating group activities, etc.) and case discussions among interns and other staff at the site. All these activities take place at the site unless the site specifically invites the student for an off-premises meeting or training course.

Procedure for filling out the log

Log entries should be made at least weekly and signed by the on-site supervisor each week. The UMO class professor will support the students on a regular basis by reviewing the hours log with the student to ensure that all the requirements can be met by the end of the semester. If problems are foreseen, the professor will work with the student (and possibly the site supervisor and/or Professional Experiences Coordinator) to ensure that the required hours can be achieved by the end of the semester.

Appendix F – CCS-R

Counselor Competencies Scale - Revised (CCS-R) ©

(Lambie, Mullen, Swank, & Blount, 2016)

The *Counselor Competencies Scale-Revised* (CCS-R) assesses counselors' and trainees' skill developments and professional competencies. Additionally, the CCS-R provides counselors and trainees with direct feedback regarding their demonstrated ability to apply counseling skills and facilitate therapeutic conditions, and their counseling dispositions (dominant qualities) and behaviors, offering the counselors and trainees practical areas for improvement to support their development as effective and ethical professional counselors.

Scales Evaluation Guidelines

- **Exceeds Expectations / Demonstrates Competencies (5)** = the counselor or trainee demonstrates **strong** (i.e., *exceeding* the expectations of a beginning professional counselor) knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).
- **Meets Expectations / Demonstrates Competencies (4)** = the counselor or trainee demonstrates **consistent** and **proficient** knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s). A beginning professional counselor should be at the 'Demonstrates Competencies' level at the conclusion of his or her practicum and/or internship.
- **Near Expectations / Developing towards Competencies (3)** = the counselor or trainee demonstrates **inconsistent** and **limited** knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).
- **Below Expectations / Insufficient / Unacceptable (2)** = the counselor or trainee demonstrates **limited** or **no evidence** of the knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).
- **Harmful (1)** = the counselor or trainee demonstrates harmful use of knowledge, skills, and dispositions in the specified counseling skill(s), ability to facilitate therapeutic conditions, and professional disposition(s) and behavior(s).

CCS-R-1

Directions: Evaluate the counselors or trainees counseling skills, ability to facilitate therapeutic conditions, and professional dispositions & behaviors per rubric evaluation descriptions and record rating in the score column on the left.

Part I: Counseling Skills & Therapeutic Conditions

CCS-R-3

Practicum/Internship

Required Forms

UMO Counseling Department

Consent for Audio or Video Taping

As you already know you are being provided counseling by a counselor in training at the University of Mount Olive. During this process, your counselor will be supervised here at the agency and at the university. This supervision aims to ensure that you receive the best possible treatment and that the counselor in training grows from this experience.

We want to assure you that all the standard confidentiality requirements associated with your counseling will be observed. Your counselor may discuss this case in supervision. However, at no time will that discussion contain data (name, address, etc.,) that could identify you. Confidential information will be fully protected as required by laws and ethical codes.

Part of this supervision is the detailed review of an audio recording of a counseling session. This is a critical piece of the education process because it allows the supervisor to help the counselor with specific counseling skills through observing these skills directly. Every precaution will be taken so that confidential information is protected, and the recording will be destroyed immediately after its use in supervision. If you have questions about this process, please discuss them with your counselor or other agency personnel. We appreciate your participation and assure you that our primary goal is to provide you with the best possible treatment and that all your rights are protected in this process.

Practicum/Internship Start Date:**Practicum/Internship End Date:**

First, we thank you for agreeing to serve as a site supervisor for our practicum/internship student. This memo outlines the mutual responsibilities of site supervisors and practicum/internship counselors providing services to clients as part of supervised field experiences in counseling. If you have any questions, or need to discuss a practicum/internship student's performance or development before the formal midterm evaluation period, please get in touch with the Clinical Coordinator.

The Department is expected to:

1. Provide weekly individual and group supervision that includes 1.5 hours during each enrollment week.
2. Provide a copy of the practicum/internship syllabus to the Site. (If you did not receive a copy of this memo, please ask your supervisee to obtain one for you).
3. Indicate to the practicum/internship student that the Department expects them to abide by the site's policies.
4. Initiate, as indicated, conferences with the Site Supervisor to discuss the student's performance.
5. Emphasize to students their professional responsibilities to clients.
6. Require students to participate obtain a background check (unless a specific one required by the site) and professional liability insurance.

The Site is expected to:

1. Provide clinical/counseling experiences for the practicum student in accordance with department requirements that include 3-4 client contact hours per week. At least 2 hours each week must be spent in individual counseling. Assist the student in obtaining consent agreements to audio record counseling sessions for use in supervision. When sending forms home with minors, it is helpful for the supervisor

to include information about why their child has been invited to participate in counseling sessions.

2. Make provisions for orientation of the Department and the practicum student of the site's buildings, philosophies, and policies. Included in the orientation should be the procedure for assigning clients to the student, emergency procedures of the site, and any site-specific limits to confidentiality of which the student counselor should be aware.

3. Attempt, within site philosophy and administrative guidelines, to help the student meet departmental requirements.

4. Provide office space for the practicum/internship student to the extent feasible. A private space will be provided for the student while they see clients.

5. Assist in the evaluation of the practicum/internship student's clinical/counseling performance relative to the objectives of the experience. A formal evaluation is conducive using the forms provided at both mid-term and final weeks of the term. The site will notify the departmental supervisor of any problems which may influence the student's successful completion of the placement.

6. Assure that the student will be properly supervised at all times by a master's level, or equivalent level counselor with a minimum of 2 years of experience with an appropriate license.

7. Provide documentation and evaluations through Experiential Learning Cloud.

Student Expectations Agreement

Reciprocal Relationship:

This internship is considered a didactic experience where the institution assists the learning experience of the student, and the student is expected to assist the institution. Specific experiences and responsibilities are to be agreed upon between the student and supervisor. However, any problems or conflicts may be reported to the course instructor as needed.

Student Agreement

Supervisor Agreement

Learning Objectives:

The student will supply the supervisor with a copy of the course syllabus detailing the course objectives. At a minimum, the practicum/internship should provide the student with a practical experience related to the field of study, exposure to typical career experiences, knowledge of ethical and legal guidelines, and typical expectations and outcomes related to the institutional goals and purposes.

Student Agreement

Supervisor Agreement

Ethics/Behavior:

Students will exhibit the highest level of ethical, moral, and legal behavior. Students and supervisors agree to abide by all applicable ethical and legal requirements and expectations. Any breach or behavioral problems will be reported promptly to the course instructor. The supervisor agrees to provide, and the student agrees to become familiar with all applicable codes and expectations of the field, applicable law, and the institution. All applicable confidentiality requirements must be strictly followed.

Student Agreement

Supervisor Agreement

Assessment:

Students will keep a personal journal/log of experiences through Experiential Learning Cloud to be submitted to the course instructor by the deadline. Additionally, supervisors agree to timely complete a final report of the student's experience, conduct, and learning objectives at the conclusion of the experience. It is the student's responsibility to provide the required forms to the supervisor in a timely manner.

Student Agreement

Supervisor Agreement

WAIVER OF LIABILITY & INDEMNITY

***Nothing in this agreement shall release the student of any responsibility or liability of the internship institution, and institutions may require other forms and agreements between the student and the institution. [The term "institution" herein refers to the organization, institution, supervisor, and any and all employees or representatives of the organization where the internship is performed.]**

- **Waiver and Indemnity.** The undersigned student, for himself/herself and his/her and assigns, and institution representative, jointly and severally, hereby release, waive their rights to recover against, and **agree to indemnify, defend, and hold harmless University of Mount Olive**, and all of its operators, and parent, subsidiary and related entities, and its and their respective officers, directors, employees, agents, servants and volunteers acting on its behalf and insurers from and for any and all claims or causes of action for any losses, damages, property damage, property loss or theft, costs, expenses (including attorney's fees and opinion witness fees), complaints, personal injury, death or other loss arising from or relating in any way to student's participation in the Internship, including, without limitation,

student's travel to, from and during the internship, and wrongful acts of others that are harmful to the student. **This release, waiver, and indemnity agreement extends to claims based in whole or in part on the negligence of the University of Mount Olive** all of its operators, and parent, subsidiary, and related entities, and its and their respective officers, directors, employees, agents, servants, and volunteers acting on its behalf and insurers. **Still, it shall not extend to claims predicated on gross negligence, willful, wanton, or intentional conduct.**

- **Covenant Not To Sue.** The undersigned student, for themselves and their heirs and assigns and an institutional representative each promise and agree that they will not sue the University of Mount Olive, or any of its operators, or parent, subsidiary and related entities, or its or their respective officers, directors, employees, agents, servants, and volunteers acting on its behalf and insurers for any damages, losses, claims, causes of action, suits, demands, costs, complaints, including those resulting from the undersigned's illness, injury, and/or death, released and waived in the two preceding paragraphs.
- **Agreements Not Limited by Actions of the University of Mount Olive.** The undersigned student agreements and obligations under the two preceding paragraphs shall not be limited or reduced in any way because any of the losses, damages, property damage, property loss or theft, costs, complaints, personal injury, death, or other loss, including those resulting from the undersigned illness, injury, and/or death, that arise or result, in whole or in part, from the negligence of, or breach of any express or implied warranty or duty by the University of Mount Olive, or any of its operators, or parent, subsidiary and related entities, or its or their respective officers, directors, employees, agents, servants, and insurers. The provisions of this paragraph extend to claims based in whole or in part on the negligence of the University of Mount Olive and all
Of its operators, parent, subsidiary and related entities, and its respective officers, directors, employees, agents, servants and volunteers acting on its behalf and insurers but shall not extend to claims predicated on gross negligence, willful or wanton conduct, or intentional conduct.

Criteria C Student Practicum/Internship Placement Agreements

This agreement is for students who are pursuing addictions counseling hours toward an LCAS-A during their internship placement. There are two versions of this form. One for placements where there is an approve site supervisor that holds a Certified Counseling Supervisor (CCS) or a Counseling Supervisor Intern (CSI) credential (see the CCS/CSI Site Supervisor Version); and one for placements where there is not a CCS/CSI supervisor overseeing the student's internship (see the No CCS/CSI Site Supervisor version).

In addition to the above site placement and site supervisor forms, one of these two forms must be completed and uploaded to the student's Documents file in Experiential Learning Cloud.

Criteria C Student Practicum/Internship Placement Agreement (CCS/CSI Site Supervisor Version)

The University of Mount Olive Counseling Program is designated as a Criteria C program with the North Carolina Addiction Specialists Professional Practice Board (NCASPPB). Students enrolled in the M.S. Counseling – Clinical Mental Health Counseling Program have the opportunity to apply for the Associate level Licensed Clinical Addiction Specialist (LCAS-A) credential upon graduation should they decide to complete 300-hours (180 – direct addictions counseling client hours) of their 600-hours of internship in addictions counseling.

In order to meet requirements of the University of Mount Olive's Counseling Program requirements for an addiction-specific internship and Criteria C program standards:

Student agrees to:

1. Follow all protocols and policies outlined in the M.S. in Counseling Handbook.
2. Apply for and be accepted into the M.S. in Counseling – Clinical Mental Health Counseling Program.
3. Enroll in and pass the following required courses; COUN 500, 510, 520, 610, 560, 600, 570, 580, 660, 650, 640, 630; and be concurrently enrolled in and pass COUN 530, 550, 670, 680, 690 during the practicum and internship experiences.
4. Select a requisite M.S. in Counseling Program approved internship placement site for one or both of their internship placements that provides the opportunity to deliver addiction counseling services as a regular part of internship duties. The internship must coincide with CCS/CSI clinical supervision.

Addiction counseling service should:

1. Cover the 12 Core Functions and 46 Global Criteria (e.g., screening, intake, orientation, assessment, diagnosis, treatment planning, counseling, case management, crisis intervention, referral, reporting, and recording keeping, and integrative treatment planning with other professionals).
 2. Include counseling services that explore issues directly or indirectly related to substance-related and addictive disorders.
-
5. Secure an internship placement site that satisfies the requirements of the M.S. in Counseling Program as outlined in the M.S. in Counseling Practicum and Internship Handbook.
 1. Practicum/Internship education placements that satisfy UMO's

- M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status guidelines for addictions counseling are with agencies (or within specific agency units) with a clear history of providing Problematic Substance Use & Addictions (PSU&A) prevention, treatment, and/or recovery programming. UMO M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status guidelines for addictions counseling specific placements:
- 1) function as a primary PSU&A or co-occurring MH/PSU&A provider with a range of services including assessment, treatment, and aftercare placements or 2) address PSU&A as complimentary and integrated facets of the overall program to offer screening for PSU&A, brief intervention, and referral.
 2. All UMO M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status guidelines for addictions counseling placements are fully vetted by the Counseling Program Clinical Coordinator and have made a clear commitment to meeting the North Carolina Substance Abuse Professional Practice Board (NCSAPPB) Criteria C standards and expectations for practicum education experience.
6. Students' weekly reports of internship activities, supervision agreement, and participation in supervision demonstrate and account for their accrual of hours in UMO's M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status specific work.
1. Track 300 hours with a minimum of 180 direct client addictions counseling specific contact hours over the course of the entire 600 total internship hours on the *Addictions Counseling Internship Weekly Log* separate from the Clinical Mental Health Internship Tracking Logs.

Supervisor agrees to:

1. Submit a copy of their current professional license and CCS/CSI certification to the Counseling Program Clinical Supervisor through Experiential Learning Cloud prior to the interning student starting work in their agency/organization along with other required placement documents (e.g. Site Supervisor Agreement, and Practicum/Internship Agreement).
2. Provide students the opportunity to deliver addiction counseling services to clients as a regular part of their internship duties. Addiction counseling service should:
 1. Cover the 12 Core Functions and 46 Global Criteria (e.g., screening, intake, orientation, assessment, diagnosis, treatment planning, counseling, case management, crisis intervention,

- referral, reporting, and recording keeping, and integrative treatment planning with other professionals)
2. Include a caseload of both individual and group counseling services that explore issues directly or indirectly related to substance-related and addictive disorders.
 3. Provide a total of 30 hours of addiction-specific CCS/CSI supervision at the placement site.

Criteria C Student Practicum/Internship Placement Agreement (No CCS/CSI Site Supervisor Version)

The University of Mount Olive Counseling Program is designated as a Criteria C program with the North Carolina Addiction Specialists Professional Practice Board (NCASPPB). Students enrolled in the M.S. Counseling – Clinical Mental Health Counseling Program have the opportunity to apply for the Associate level Licensed Clinical Addiction Specialist (LCAS-A) credential upon graduation should they decide to complete 300-hours (180 – direct addictions counseling client hours) of their 600-hours of internship in addictions counseling.

In order to meet requirements of the University of Mount Olive's Counseling Program requirements for an addiction-specific internship and Criteria C program standards:

Student agrees to:

7. Follow all protocols and policies outlined in the M.S. in Counseling Handbook.
8. Apply for and be accepted into the M.S. in Counseling – Clinical Mental Health Counseling Program.
9. Enroll in and pass the following required courses; COUN 500, 510, 520, 610, 560, 600, 570, 580, 660, 650, 640, 630; and be concurrently enrolled in or passed COUN 530, 550, 670, 680, 690 during the practicum and internship experiences.
10. Select a requisite M.S. in Counseling Program approved internship placement site for one or both of their internship placements that provides the opportunity to deliver addiction counseling services as a regular part of internship duties. The internship must coincide with CCS/CSI clinical supervision.

Addiction counseling service should:

1. Cover the 12 Core Functions and 46 Global Criteria (e.g., screening, intake, orientation, assessment, diagnosis, treatment planning, counseling, case management, crisis intervention, referral, reporting, and recording keeping, and integrative treatment planning with other professionals).
 2. Include counseling services that explore issues directly or indirectly related to substance-related and addictive disorders.
11. Secure an internship placement site that satisfies the requirements of the M.S. in Counseling Program as outlined in the M.S. in Counseling Practicum and Internship Handbook.
 1. Practicum/Internship education placements that satisfy UMO's M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status guidelines for addictions counseling are with

- agencies (or within specific agency units) with a clear history of providing Problematic Substance Use & Addictions (PSU&A) prevention, treatment, and/or recovery programming. UMO M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status guidelines for addictions counseling specific placements:
- 1) function as a primary PSU&A or co-occurring MH/PSU&A provider with a range of services including assessment, treatment, and aftercare placements or 2) address PSU&A as complimentary and integrated facets of the overall program to offer screening for PSU&A, brief intervention, and referral.
 2. All UMO M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status guidelines for addictions counseling placements are fully vetted by the Counseling Program Clinical Coordinator and have made a clear commitment to meeting the North Carolina Substance Abuse Professional Practice Board (NCSAPPB) Criteria C standards and expectations for practicum education experience.
12. Students' weekly reports of internship activities, supervision agreement, and participation in supervision demonstrate and account for their accrual of hours in UMO's M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C status specific work.
1. Track 300 hours with a minimum of 180 direct client addictions counseling specific contact hours over the course of the entire 600 total internship hours on the *Addictions Counseling Internship Weekly Log* separate from the Clinical Mental Health Internship Tracking Logs.

Supervisor agrees to:

4. Provide students the opportunity to deliver addiction counseling services to clients as a regular part of their internship duties. Addiction counseling service should:
 1. Cover the 12 Core Functions and 46 Global Criteria (e.g., screening, intake, orientation, assessment, diagnosis, treatment planning, counseling, case management, crisis intervention, referral, reporting, and recording keeping, and integrative treatment planning with other professionals)
 2. Include a caseload of both individual and group counseling services that explore issues directly or indirectly related to substance-related and addictive disorders.
5. It is not necessary for the agency site supervisor to be a CCS/CSI. Students satisfying UMO's M.S. in Counseling – Clinical Mental Health Counseling Program Criteria – C requirements will receive a minimum of

30 hours of addiction- specific CCS/CSI supervision at UMO's M.S. in Counseling Program.
